Our multi-level acting curriculum provides engaging, age-appropriate training for students in kindergarten through high school. It introduces a wide range of performance techniques that foster creative expression, ensemble collaboration, and character development. Each level builds on foundational skills, progressively advancing toward more nuanced and disciplined performance practices. Classes are designed to meet students where they are—whether they're brand new to theatre or have prior experience. Every course nurtures creativity, confidence, and collaboration while equipping students with professional acting tools that grow with them over time.
